PROFILE SUMMARY

Pursuing Bachelor of Engineering Degree in Computer Science with strong fundamentals in programming and software development. Experienced in creating practical projects using modern tools and technologies. I am highly motivated to apply my skills and perform exceptionally well in this internship.

SKILLS

- **Technical:** Basic App Development (Flask), MySQL, SQ3Lite, Python, Java, C, C++, HTML, CSS
- **Soft Skills:** Teamwork, Communication, Problem-Solving, Leadership, Creativity
- **Languages:** Tamil, English, Hindi (Prachar Sabha – 8 levels)

EDUCATION

- B.E. CSE – Easwari Engineering College (2024–2028) | CGPA: 8.95
- BS in Data Science & Applications – IIT Madras
 - Completed Foundation Level (CGPA: 7.63)
 - Pursuing Diploma Level (CGPA: 7.6)
- Class 12 – SWAMY'S School (CBSE) | 95.8% (School 3rd Rank)
- Class 10 – SWAMY'S School (CBSE) | 97.4% (School Topper)

MINI PROJECTS

Smart Traffic Management System:

This system integrates OpenCV and YOLOv8 for real-time vehicle detection with LSTM neural networks to predict congestion and optimize traffic flow. It features a dual-interface architecture providing dynamic rerouting for commuters via a mobile app and automated signal control for authorities via a web dashboard. The solution leverages a robust IoT sensor network to proactively reduce travel times and emissions.

Tech: LSTM, YOLOv8, OpenCV, Google Maps API, Flask, Python, HTML/CSS/JS, Prediction Algorithms.

DEMO OF THE PROJECT

UFDR Analyzer Tool:

The **Digital Forensics Accelerator** expedites investigations by ingesting UFDR data for natural language querying via Google Gemini Pro, while automating cognitive analysis to instantly flag suspects and anomalies. It integrates a hybrid Computer Vision engine for rapid, object-based media searching and visualizes complex communication structures through interactive NetworkX graphs to uncover hidden connections.

Tech: LSTM, YOLOv8, OpenCV, Google Maps API, Flask, Python, HTML/CSS/JS, Prediction Algorithms.

DEMO OF THE PROJECT

CERTIFICATIONS

- **NPTEL (IIT):** C Programming (**Elite**), Industrial IoT (**Silver**), Human-Computer Interactions (**Elite**)
- MongoDB Basics – MongoDB University
- Networking Basics and Python Essentials – Cisco NetAcad
- C & C++ Courses – Livewire CADD

ACHIEVEMENTS

- Won in Nexus 7.0 Project Competition by Industry Institution Summit (IET)
- Active participant & multiple wins in coding/technical events at Anna University (CEG Campus), Madras Institute of Technology (MIT), Chennai Institute of Technology (CIT), Rajalakshmi Engineering College (REC), Easwari Engineering College and others...
- Cleared Internal Round (Easwari Engineering College)- Smart India Hackathon (SIH) organized by Ministry of Education, AICTE, Govt of India
- Achieved First Position (School) in OLYMPIAD Competitions namely SOF – National Science Olympiad (NSO) and International Maths Olympiad (IMO)
